

## **Never Failed Me**

When I find my name is falling apart  
Your love is never failing  
When I cannot trust the strength of my arms  
Your power is unending  
When the highest walls have circled me in  
Your mercy is surrounding  
When I'm mired in the depths of my sin  
Your love is never failing

*So I lift up a song of praise  
Shout out Your Name  
Because Your love has never failed me  
I surrender my gain as loss  
Look to the cross  
It's where Your love has never failed me*

When I see my only hope disappear  
Your love is never failing  
When my bravery is fading in fear  
Your power is unending  
When I praise You in my happiest day  
Your mercy is surrounding  
When I struggle in the moment of pain  
Your love is never failing

*So I lift up a song of praise  
Shout out Your Name  
Because Your love has never failed me  
I surrender my gain as loss  
Look to the cross  
It's where Your love has never failed me*

You are a shield  
You are a shield around me  
Deliverance  
Deliverance has found me
